

Subject: Mandatory Camera-Ready Paper Guidelines – Bangalore Section TPC (IEEE Xplore Submission)

Dear Authors,

Today, all accepted papers have been cross checked by Bangalore Section **Technical Program Committee (TPC)**

Please note that the TPC has issued the following mandatory guidelines for preparing the Camera-Ready version. These guidelines are compulsory, irrespective of whether they appear in the reviewer comments or not.

These instructions are issued after consultation with the Section Leader.

Failure to strictly comply will result in non-submission of the paper to IEEE Xplore.

TPC GUIDELINES (MANDATORY)

1. IEEE Conference Template must be used

<https://www.ieee.org/conferences/publishing/templates.html>

(Preferably US Letter format for DOCX)

Do NOT change any font style, font size, section heading, subsection heading, spacing, or layout.

2. **Title Case Rule:**

First Capital Letter of Each Word

Maximum 12 words

Less than 75 characters

3. Do NOT include author titles such as Dr., Professor, Student, etc.

Do NOT include author designations (e.g., Assistant Professor, IEEE Member, Fellow, etc.).

4. Authors from the same affiliation must be written in a SINGLE column, separated by commas.

Only one email ID is sufficient.

5. **Abstract:**

- Around 150 words
- Single paragraph only
- No citations in the abstract

6. Keywords must be included immediately after the abstract.

7. Maintain consistency in technical writing and terminology.

8. Section I: Introduction

Should normally have 5 paragraphs:

Para 1 & 2: Background, motivation, importance (with sequential citations)

Para 3: Recent existing work and identified research gaps

Para 4: Original contribution and novelty of the present work

Para 5: Organization of the remainder of the paper

9. No figures or literature comparison tables allowed in the Introduction.

Do NOT include a separate Literature Review / State of the Art / Recent Work section.

Literature should be only one paragraph (3rd para) in the Introduction.

10. Section II title may be System Architecture, Methodology, Design, etc., based on the work.

11. Conclusion:

Section title must be only “Conclusion”

Do not split into multiple paragraphs.

12. Acknowledgement (if any):

Should NOT have a section number

Do NOT acknowledge the university/organization where the faculty or scholar works.

13. References:

Maximum 11–13 references

Typical conference papers have 7–9 references

Include only recent and relevant work

Avoid web links; if unavoidable, ensure proper citation format.

Reference formatting must strictly follow IEEE style.

14. Figures and Tables:

High resolution and clearly readable

Labels, legends, and axis text must be visible

Must not exceed column width

15. Total paper length: 4–6 pages

Page Limit: Maximum 6 pages

16. Each extra page will incur a charge of USD 100

17. Do NOT include any footer or header (copyrights, conference name, etc.).

18. IMPORTANT NOTES:

The IEEE template and fonts MUST NOT be changed under any circumstance.

No addition of authors is permitted. Only authors listed in CMT are allowed in the Camera-Ready paper.

19. DEADLINE

1. Authors must complete all corrections and submit the final Camera-Ready manuscript by **07-05-2026**.
2. Failure to comply by the deadline will result in non-submission to IEEE Xplore.
3. If discrepancies are found again, no further communication will be made, and the paper will not be forwarded to Xplore.
